

## CITY OF AMARILLO

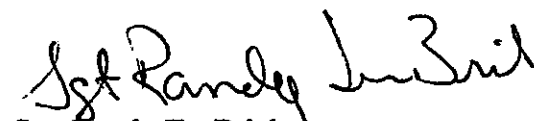

POLICE DEPARTMENT

Panhandle Search and Rescue  
1010 N Maddox  
Dumas, Texas 79029

Dear PANSAR Members,

On behalf of the Amarillo Police Department, we would like to express our appreciation for your assistance in attempting to locate the body of Kelly Katherine Wagoner. After an extensive investigation from our Detective Division and a Private Investigator, our search had run out of leads. While exploring the possibilities of using cadaver dogs, our detectives were unaware that there were dogs in the panhandle area that were water certified. Members of PANSAR contacted the Amarillo Police Department advising that indeed their dogs were water certified and were offering their services. On January 20<sup>th</sup>, several members of PANSAR team volunteered their time and resources to assist in searching Lawrence Lake. Shortly after the dogs began working, a dog alerted to a body in the lake. Due to the training and handling of the dogs, a family now has closure on their missing daughter. We have enclosed certificates for 5 members that are being recognized with the Citizens Certificate of Recognition, signed by Chief Jerry Neal of the Amarillo Police Department. Please accept these certificates as a token of our appreciation for your outstanding dedication to serving others in the community.
